

C21 Websites

Generate leads and gain brand awareness in your market.

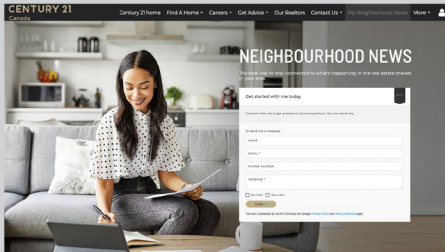

Grow your brand

All state-of-the-art C21 websites are fully customizable to reach your target market. The website builder allows you to personalize your website utilizing a library of templates and pre-populated pages. In addition, you can leverage the blog functionality to showcase your local expertise and gain recognition in your market.

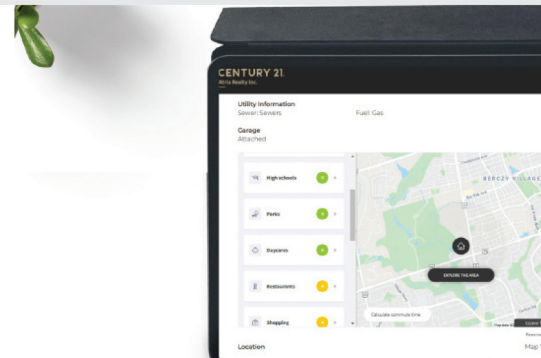

Capture & route leads for quick follow up

When visitors connect with your site, their contact information is transferred directly into C21Engage where you then have the tools to guide them seamlessly through the sales process. In addition, every C21 website has a Neighbourhood News page which captures client information in order to provide them useful market data every month, ensuring you always stay top of mind.

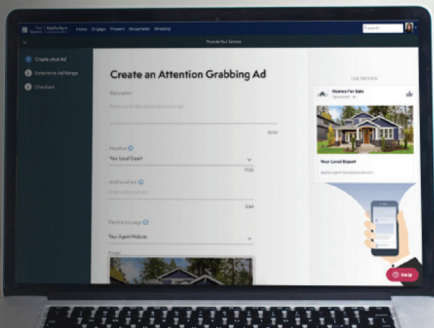

Position yourself as the local expert

Each property page showcases hyper-local information, brought to you by Local Logic. By offering unique neighbourhood information including proximity to amenities such as grocery stores, daycares, schools and restaurants, you can increase conversions and reduce bounce rates.

Generate more leads with C21Promote

Fully integrated with the MLS®, C21Promote helps you advertise your property on Facebook and Instagram in 3 easy steps. To showcase your extra advertising efforts, you can send automated reporting to your clients. With C21Promote, you can also drive leads and build your personal brand with service and community ads.
