

C21 Engage

Improve your productivity by using C21Engage.

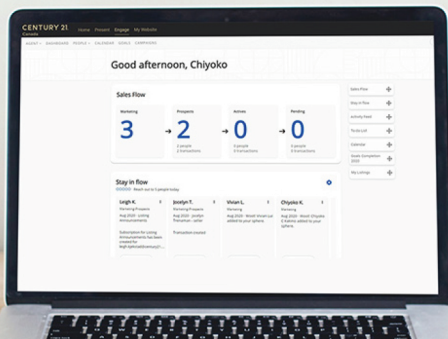

Stay on top of your desired results

With C21Engage, you can set goals and monitor your progress throughout the year. In addition, the system will coach you by suggesting ways to improve your activities, ensuring you manage your time while achieving your objectives. It looks at your business from an objective point of view and shows what's working and what needs some extra attention. Then you can create a task list to make sure you never miss another opportunity.

Increase your conversion rates

With an easy-to-read dashboard, at a glance you can see where your contacts are in your sales funnel. You can also track all of your activities and what the system is doing to help nurture your sphere of influence. Plus, you can create tasks and sync them directly to your C21 calendar so you stay on top of your day.

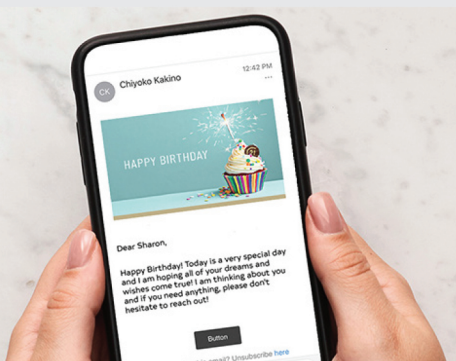

Provide value to your clients

Neighbourhood News is a high-quality, interactive and automated newsletter that gives you the ability to stay in touch with your sphere by providing them valued market data from their community. This monthly newsletter provides a useful, consistent touch point so you can stay top of mind. In addition, every time a client updates their postal code or asks a question on a listing, you will be able to quickly see all their actions so you can reach out when the time is right!

Stay top of mind at all times

C21Engage email campaigns give you the ability to set up specific campaigns that meet the needs of your target audience. Campaigns include buyer/seller, first time home buyers, special occasions or our legendary Life@Home monthly newsletter. Each plan is designed to help you stay engaged with your contacts.
